Dear Art:

It is possible (not yet certain) that we will be arriving at Calcutta from Perth on Thursday Nov. 7 (Qantas) and departing Bombay for Rome (also Qantas) on the 20th. If you are in India during that interval and want to compare notes, would you try to look me up? In Calcutta, c/o JBS Haldane at the Indian Statistical Institute; in Bombay, c/o Khanolkar at the Cancer Research Institute of the Indian AEC. Or better still, send us your own flight plan and we'll look for you if that is feasible.

Looking at my calendar, I don't see how I can make any commitments for hopping around next Spring; the situation may look brighter then, but I don't feel I can mortgage my time now, though it would be fun to see both of you, either abroad or at home.

Best wishes, and  
thanks for asking I'll try to do  
better next time around, yours,

Joshua Lederberg
